MEMORANDUM FOR SENATOR HAYDEN

The Military Construction Appropriations bill, H. R. 12231, which was passed by the House of Representatives on June 9, would appropriate \$415,000 for construction at Fort Huachuca, to be distributed as follows:

Two environmental test buildings, \$204,000.
Test chamber building, \$127,000.
Expansion of water distribution system, \$84,000.

In a Military Construction Authorization Act in the 85th Congress three barracks buildings were authorized, but only one was funded. This was the year when Congress refused to provide money because of allegations of high labor costs. The two barracks buildings were estimated to cost \$1,194,000. Jack Moore's figure of \$2,541,000 includes this and necessary supply facilities.

You may want to try to put money for these barracks in the construction appropriations bill now pending before the Senate Committee on Appropriations.

Paul R. Eaton
